

Gates Locks

The combination on the La Grande Rifle & Pistols Club's range gates locks have been changed as of Jan 1, 2016.

To make sure you can open the gates at will, do the following.

- 1. TO UNLOCK GATE. Enter the 2016 combination into the lock.**
- 2. Depress the lock shackle and pull to open the lock.**
- 3. Leave the combination visible and enter the range area.**
- 4. TO LOCK GATE. Hold the lock closed and spin the combination to a different series of digits to lock.**
- 5. Cussing, jumping up and down will not make the lock open any faster.**

The above concept was taken from the Powder River Sportsman's club newsletter
