

Black Powder Nuze

Had a really cold day to shoot and only 4 shooters. 14 degrees when I came through the gate. Got a good fire going and spent an hour replacing 2/4s and backers. Shot gun shooters are really hard on backers. Any suggestions on how we might help the situation? Anyway we shot 10 shots with hand guns at 25 yds at twin bulls

Mtn Man	80
Sunshine	75
Crockett	65x

Then 10 shots with long guns at 25 yds at a 5 bull buffalo 2 shots at each bull then 10 shots at 50 yds at a runnin boar.

	5 bull	runnin boar	total
Mtn Man	79	64	143x
Sunshine	85	47	132x
Crazy Hawk	50	47	97
Crockett	46	38	84

I really believe Sunshine would have won the boar target and maybe beat me too except Crazy Hawk shot all 10 of his shots at Sunshines boar and there was no way to tell whose holes were whose. So we added them up and divided by 2 and each one got 47 points and I am sure Crazy Hawks were the worst. Any that's the way she worked out (thanks Gary) See ya next month Mtn Man

P/S the chilly was super good Thanks Cherie
