

**08/12/2017 Match**

**As I am finishing this email we are having a nice rain shower . . . A great way to end a great day with all of you at the range!**

**It was a busy day of demonstrating that with our shooting skills and judgment honed to a sharp edge by our training we could not only cope with, but overcome situations we are thrust into by a deteriorating society.**

**Stage 1: Bank Robbery:**

**When entering the bank we discovered a robbery in progress. We sought cover and engaged the BGs (bad guys) while not hitting the Non-threats. it goes without saying these miss-guided soles didn't make a withdrawal today**

**Stage 2: Threezy Peezy:**

**From cover we had to engage 3 targets strong side, reload and engage 3 more targets weak side.**

**This. of course is one of the drills we use to sharpen our skills**

**Stage 4: Warehouse attack:**

**We engaged 6 targets from around closely spaced barrels with 2 body shots while moving in one direction, reloaded and returned while administering one head shot to each target. We seem to find ourselves back in this warehouse from time to time. Once again 6 BGs were outgunned by one of us.**

**Stage 4: Up Close and Personal**

**We are face to face with nefarious characters bent on doing us harm. To protect ourselves we have to draw and protecting our weapon by holding it close to our body fire one shot to the BG**

**directly in front of us, 2 shots to the BG on one side of him, another shot to the BG in front of us, and two shots to the remaining BG. All this while putting distance between us and these folks who**

**had the temerity to think three of them against one of us put the odds in their favor.**
